COMGEN USFCT COFS Army

DTG : 251831 25 August 1945

In connection termination of training COMGEN USFCT CFB 5224 of 19 August and early return of excess personnel, my 241828, Army Navy Communication Intelligence Board on 22 August recommended continuation of signal intelligence relationships with Chinese now in effect under the SACO agreement. First reference now under consideration by JCS. Some Chinese American cooperative organization will probably be required to take over weather activities your 240641, doing this, if practicable, without interruption of service.

Similar considerations also apply hydrographic and possibly other activities. For foregoing reasons until receipt of JCS decisions continue heavy unit and also training in and support of activities of definite postwar value to us and move slowing in closing out those activities of probably post-war value.

End 350.05 ETO
